5. ACTIONS TAKEN TO ASSESS AND ADDRESS RISKS OF FORCED LABOUR AND CHILD LABOUR

We recognize that in our supply chain there are limits on visibility beyond our first tier of suppliers. The preliminary assessment of our Supply Chain shows the majority of our Suppliers are based in United States and Canada, which as per the Global Slavery index, are among countries with the lowest prevalence of modern slavery. This assessment remains unchanged from prior reporting periods.

The Company has implemented the following actions during the Fiscal Year to assess and address risks outlined in the Act, which include:

a) **Supplier Engagement**

The Company continued its supplier engagement efforts during the reporting period to address modern slavery risks. **Commitment to Ethical Business Practices Letter** and **SAQ** was sent to the top-tier suppliers.

b) **Supplier Code of Conduct**

The Company continued to implement its Supplier Code of Conduct, which had previously been distributed to suppliers representing over 80% of annual spend, as well as those in higher risk locations. Signed acknowledgements continue to be maintained for record keeping.

During the reporting period, the Company strengthened this framework by integrating the Supplier Code of Conduct into purchase order templates to reinforce its policy.

To enhance transparency, the Company has also published updated policies on its website.

c) **Self-Assessment Questionnaire (SAQ)**

The Company continued to distribute the SAQ to its key Suppliers to assess their awareness and management of modern slavery risks. Suppliers were asked to provide information on the following:

- **Regulatory Compliance:** Whether they are required to comply with the act, and if so, to submit their reports.

- **Investigation and Charges:** Disclosure of any known investigations or charges related to modern slavery or other abuses within their supply chain.
- **Modern Slavery Policies:** Confirmation of the existence of policies addressing modern slavery.
- **Employee Training:** Detailed information on training programs provided to employees regarding modern slavery and related human rights abuses.

d) Training Provided for Employees on Forced Labour and Child Labour

The Company's employees receive regular training on the Code of Conduct and our policies. All new employees are assigned a mandatory onboarding training package which includes training in our Code of Conduct. On an annual basis, all employees are required to review and acknowledge their understanding of the Code of Conduct. In addition to the above training, key stakeholders involved in supply chain and operations were provided with modern slavery refresher training. This training aimed to raise awareness of modern slavery issues to ensure understanding of their obligations under the Act.

a) Due Diligence

As part of our 2026-2027 Action Plan, Company will continue to engage with our stakeholders and will enhance its due diligence processes.
